Business Summary.

New York, May 23.—The British admiralty will obtain control of Persian oil monopoly if parliament sanctions government's subscription of \$110,000,000 as new working capital. Spearman and Son searching out oil possibilities in North Africa. White Star line profits in 1913 were \$5,000,000. Board of managers of coffee exchange appointed committee to go into details of admitting sugar futures to floor. Failures this week 296 against 297 previous week. Steel men predict early trade boom. Ford Motor company will fight in English high court to establish minimum price at which its cars may be sold.

Morning Grain Letter.

Chicago, May 23.—Wheat is once more deemed a bulge sale. Oats are considered a purchase until really good rains arrive in middle west. Chicago corn supplies are nearing the 2,000,000 mark and guesses are that June receipts will be small. Chicago receipts of most farm stuffs for May are exceedingly small. Receipts of hogs and cattle will be lightest in 28 years. Corn receipts are

smallest in 12 years. An excellent reason for the corn and provision strength. The Armour Grain company is credited with further selling of wheat. Every scrap of Friday's crop news suggested a limited fly area with a drop of six to seven points for the month. No serious news arrived from Kansas and Nebraska. The east awaits the June run of corn. Export wheat demand has had a seven day rest. Locals anticipate a rally in wheat today or Monday. Wheat visible should decrease one to two million and the corn visible a million or more.

For the month of May the Argentine shipments are about 45 per cent of the corn formerly expected and if she falls as a shipper in June, our corn will sell very high. Our reports of this morning follow: Central Missouri reports 50 per cent fly damage in Cooper, Howard and Boone counties. Some loss in wheat condition. Larned, Kan., reports oats 25 per cent and wheat 95. No rain of consequence was reported in big grain states to 7 p. m. Friday.

Weekly Grain Visitation. Chicago, May 23.—Week ends with wheat market quivering with its first crop scare. Winter wheat condition probably reduced to 88 or 89 per cent. Plenty of dry spots. Canadian and spring wheat crops making fair start. United States total June 1 crop promise may be \$25,000,000 to \$30,000,000. United States 1913 wheat crop over-estimated 30,000,000 and European 1913 wheat crops palpably over-estimated.

What market now digesting immense sales by leaders. Former low points should not be exceeded. Rallies due. Market usually sags June 1 to 10. Foster says June will not be a favorable crop month. Dry spells. Over-estimating of the 1913 world yield suggests that the fancy estimates on our 1914 winter yield are "dreams, just dreams."

Europe running on low wheat supplies. United States wheat visible drifting to the 20,000,000. After Aug. 15 Europe will depend solely on Canada, the United States and Russia for wheat. Small exporters have light supplies. Seventy-five per cent wheat impossible. If trend is lower 85c level promises to hold well through June.

Corn probably a slight sale against the after planting run, but is a purchase June 1 as discounting of the June receipts should be completed. We anticipate old corn scarcity and do not care to be aggressive sellers of July or December corn. The denuded world's market places point to buying of corn on attractive declines.

September oats may return to their old bargain spot of 37 cents, but should be enhanced investment absorption and ultimately sell to new highs. Our oats crop elevator should again be read carefully. September oats are down to an average economic buying level and should be acquired.

Visible supplies of wheat, corn and oats are down to the anxious stage. The world may be contemptuous as to a future large wheat supply, but on its small store of wheat June 1 there is nothing bearish in wheat at current prices. The new cotton crop months should be bought when weak. Chicago provision supplies are not increasing seriously and there are no supplies of consequence elsewhere. The month of May has proved a failure to the careless estimators of a large summer hog run. Present provision levels promise to last through June. Ribs find most favor.

Jury Holds Rich Farmer.

Quincy, Ill., May 23.—Indictment for perjury on two counts was returned yesterday by the grand jury against Henry J. Geisel, a wealthy farmer, for alleged false statements in the murder trial of Ray F. Schmidt, who was sentenced to death last summer for the murder of his parents, sister and a school teacher.

An armchair supposed to have been made by Peter the Great from the timbers of a wreck, while he was a guest of John Evelyn, was recently sold in London.
